

PARADIGM[®]

SUB-COMPACT VACUUM EXCAVATOR

NEVER COMPROMISE

Built for precision work in tight spaces.

Not every job calls for the biggest truck.

The Non-CDL Paradigm is engineered to go where others can't. It delivers safe, efficient excavation with a smaller footprint, smart design and multipurpose capability that expands what one machine can do.

- Compact, non-CDL chassis for easier access and operation.
- Single-engine system for simplified operation and maintenance
- Powerful yet compact 2,200 CFM vacuum system
- Park-N-Dig™ one-switch operation for rapid deployment
- DigRight® precision water control to help protect utilities and components
- Air and hydro excavation capability for maximum versatility
- Multi-function capability to power tools and support jobsite tasks
- Vector-backed support with responsive parts and service network

ACCESS

Go where larger trucks can't: urban, residential and confined sites.

VERSATILITY

Excavate, vacuum, power tools and support multiple job types with one machine.

EFFICIENCY

Simplified systems and fast setup keep crews productive with less complexity.

PARADIGM®

SUB-COMPACT VACUUM EXCAVATOR

APPLICATIONS

Designed for precision work across:

- Utility locating and safe excavation around underground infrastructure
- Municipal and maintenance work in tight environments
- Horizontal Directional Drilling (HDD) support and keyholing
- Construction, landscaping and light industrial applications

KEY SPECIFICATIONS

Debris Capacity: 3.34 yd³ / 675 gallons with 50° tilting body

Water System: 8 gpm @ 3,000 psi (DigRight® technology)

Vacuum System: 2,200 cfm, 15 in-Hg positive displacement blower

Boom: 6" system, extendable to 14' 6" reach, 195° rotation

Chassis: Class 6 non-CDL or Class 7 options

CONFIGURED FOR YOUR OPERATION

Adapt Paradigm to your workflow and jobsite needs:

- Non-CDL configuration for easier staffing and deployment
- Air or hydro excavation setups
- Optional backfill hopper capability
- Storage and transport configurations for equipment and tools
- Application-specific setups for municipal, utility or contractor use

BUILT FOR THE OPERATOR

- Park-N-Dig™ single-switch setup reduces complexity and training time
- Compact footprint improves maneuverability and site access
- Simplified controls for faster onboarding and operation
- Designed for safe digging with precise control around utilities
- Tool power integration (pneumatic, hydraulic, electrical)

BACKED BY VACTOR SUPPORT

Performance doesn't stop at the machine.

- Coast-to-coast dealer and service network
- Responsive parts availability to minimize downtime
- Training and support for safe, effective operation
- Commitment to uptime, reliability and long-term performance
